Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 1/8/04.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Herrmann (U.S. Patent No. 6,264,133).

Herrmann discloses an installation for intermediate storage of flat articles comprising primary transport paths (extending in the Y direction parallel to rails 22 in Fig. 5), a secondary transport path (extending in the X direction in Fig. 5), stations W for establishing and dissolving storage formations of the articles, mobile supporting elements 3, 3', storage spaces L for the supporting elements, a positioning device (20, 21, and associated structure for supporting and driving them along rails 22) for transporting the supporting elements along the primary paths, and an orienting device (22 and associated mechanism for orienting and driving in the X direction). The positioning device (21, etc.) and the orienting device are operable

Art Unit: 3654

independently of each other. The state (on or off) of the drive of one does not depend on the state of the drive of the other.

Response to Arguments

Applicant's arguments filed 1/8/04 have been fully considered but they are not persuasive.

Applicant argues that the manipulator 1 of Herrmann is used to position roll supports 3, 3' along primary paths, to change the orientation of the roll supports, and to transport the roll supports along the secondary path. However, Herrmann includes independently operable structures and mechanisms that, combined, perform these operations as required by the claims. The mechanism that transports the roll supports along the primary paths is distinct from the mechanism that orients and transports along the secondary path and they operate independently. In addition, the orienting device which includes rails 22 and associated drive mechanism transports the positioning device along the secondary path (in the X direction).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3654

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
